

# POSITIVE PLANET

## Our Environmental Charter

We want to have a positive impact on the planet by reviewing our actions and we are taking steps to reduce our carbon, plastic and food waste. We want to use our position to inform our guests and help them make decisions that can positively impact the planet. You are welcome to share any ideas to support us in our approach.

In the meantime, do not hesitate to look into the “Eco Practices” section to help up achieve our environmental goals !

We are 100% single-use plastic free.

Our rooms are equipped with energy saving systems that automatically turns off lights and air conditioning systems when our guests leave their rooms.

We offer alternatives to encourage our guests to limit car travel by offering them the possibility of renting bicycles and electric scooters for free during their stay.

Bed linen and towels are only changed when needed or upon request from guests during their stay.

We favor partnerships with local companies, who cares about the environment.

We avoid paper printing as much as possible by favoring digital communication before, during and after our guest's stay.

Our kitchens are equipped with Orbisk, an intelligent solution that allow us to limit and reduce food waste.

Across the hotel, we recycle glass, metal, plastic, paper, compost and almost all our waste.
